Newsletter Training Toolkit

admin

Path to Success is a project dedicated to empowering young people by strengthening career guidance and employability across Europe. One of its key results is the Training Toolkit designed to support youth workers and organizations in **organizing and delivering training courses on career guidance**, using the project's methods and tools.

Youth workers and NGOs across Europe need tools that truly make a difference.

So we didn't just create another resource.

We created something meant to be used, tested, and lived in real learning spaces.

Something that goes beyond theory —

and supports you step by step in bringing career guidance to life.

□ A Training Toolkit designed to help plan, implement, and facilitate impactful training on career guidance:

□ for training courses and capacity-building activities

□ for youth workers and educators

□ in non-formal education settings

□ Inside, you'll discover:

□ structured training content and methodology

□ interactive activities and non-formal education methods developed during the project

□ practical tools for career guidance and personal development

□ guidance on how to use the project's outcomes in your own trainings

□ Created for youth workers, NGOs or professionals who want to **deliver impactful career guidance trainings** and support young people in shaping their future across Europe.

□ Download it for free:

□ <https://pathtosuccess.beyoueurope.eu/training-toolkit>

□ Explore all resources developed within the project:

□ <https://pathtosuccess.beyoueurope.eu>

□ If you organize trainings or work with young people, this toolkit is for you. If you know someone who does — share it and help us expand its impact across Europe.
